

## NEW OFFICE IN CHINA

FA-ST Ltd visited Shenzhen in May 2011 to officially open the NEW OFFICE for our distributor Shenzhen Kleenoil Equipment Co Ltd.

New premises were needed to cope with the increased business and the demand for the oil filtration products.

Within the office suite is our own China office and a further 8 desk stations along with restroom and comfortable seating area for guests and clients.

The office is in a new building in the Shekou district of Shenzhen which has been built with a low carbon footprint in line with new regulations that are slowly being introduced throughout China.

Whilst in China we visited several of our Distributors new customers and also signed a long term contract with a major OEM.
